IQ-SLIM

INSPIRED BY
TECHNOLOGY.
DEFINED BY
DESIGN.

IQ SLIM

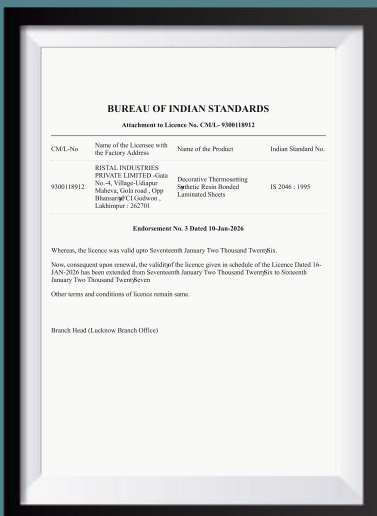

IQ-SLIM by **Ristal Laminates** is a high-quality decorative surface solution engineered for furniture inner applications.

Combining durability with a refined finish, it offers a smooth, elegant surface that enhances the look and longevity of wardrobes, cabinets, shelves, drawers, and other interior furniture components. Lightweight, versatile and cost-efficient, **IQ-SLIM** is the perfect choice for creating premium furniture interiors with lasting performance.

CERTIFICATES

Certified for Quality, Trusted for Performance.

Every surface we create meets rigorous standards of quality, safety, and durability because excellence should never be assumed, it should be certified.

Our commitment to compliance reflects our commitment to you.

Backed by recognised certifications across manufacturing and environmental benchmarks, we ensure consistency in every batch, every finish, every application.

Because trust isn't just promised it's proven, standard after standard.

TECHNICAL SPECIFICATIONS

RISTAL Modern Laminates
Ristal Modern is strongly recommended for all inside or backside applications of wall panels, storage cabinets & doors, shelves, counters, tables, cupboards, beds, racks, etc. due to its various advantages.

Product Characteristics
The Modern Laminates protect the furniture from humidity and is the right balancing material. The liner bonds well with all substrates due to its sanding property.

Specification
The size of the sheet is 2440x1220mm
Thickness: 0.72mm and 0.92mm
Finish: Matt or Suede Finish

Storage
Please store the sheets horizontally with a thick board at top and bottom to avoid any damage. Vertical storing is not recommended for Modern Laminates. Protect it from water & moisture and never store directly on the floor or touching the wall.

Maintenance
The Ristal Modern does not need any maintenance. It is easy to clean, just wipe with a damp cloth.

Note:
Please do not use plywood with high moisture content, uneven surface and inferior quality as it will lead to air bubbles between the plywood and laminates. Insufficient quantity or inferior quality of adhesive will also lead to delamination or air bubbles. The Company will not entertain any complaint in this regard.
