TECHNICAL SPECIFICATIONS

RISTAL Liner Laminates

Ristal Liner is strongly recommended for all inside or backside applications of wall panels, storage cabinets & doors, shelves, counters, tables, cupboards, beds, racks, etc. due to its various advantages.

Product Characteristics

The Liner Laminates protect the furniture from humidity and is the right balancing material. The liner bonds well with all substrates due to its sanding property.

Specification

The size of the sheet is 2440x1220mm
Thickness: 0.72mm and 0.92mm
Finish: Matt or Suede Finish

Storage

Please store the sheets horizontally with a thick board at top and bottom to avoid any damage. Vertical storing is not recommended for Liner Laminates. Protect it from water & moisture and never store directly on the floor or touching the wall.

Maintenance

The Ristal Liner does not need any maintenance. It is easy to clean, just wipe with a damp cloth.

Note:

Please do not use plywood with high moisture content, uneven surface and inferior quality as it will lead to air bubbles between the plywood and laminates. Insufficient quantity or inferior quality of adhesive will also lead to delamination or air bubbles. The Company will not entertain any complaint in this regard.
